Meeting was called to order.

Gary Queckboerner, Preston Short, John Eastes, and Peg Garton were in attendance.

The board reviewed and approved the vouchers and treasurer report.

Peg noted that the stipends for April, May, and June would be submitted at the new amount. Peg and John Eastes would check previous meeting notes for the new stipend amount.

Peg reported that the new billing booklets had been completed and that they were scheduled to be mailed on or before the fifteenth of June.

Peg discussed the transition with Earth First.

Peg reported that a good deal of rain had occurred the week before and that drains remained clear.

Dan Hess reviewed the paper work to allow the engineering portion of the drain work for the Pony Express Run project. Preston made the motion to approve, Gray seconded the motion. The motion passed.

Dan discussed two storm water complaints. Although advice was given by the engineer, the Town was not responsible for either repair.

Peg asked Dan to review the bid packet that was going out to assure that the work that was not done last year was included.

The meeting was adjourned to July 8, 2015 at 6 p.m. instead of July 9, 2015, due to scheduling conflicts.

Signed: Peg Garton, Secretary

Attested: Preston Short, Chairman
